“In the future, when no one else will tell our grandchildren and their children of their American legacy, of God’s goodness, of their Savior Jesus Christ, of those that gave their all to offer them freedom, peace and prosperity, the Monuments we build today will remain as a testament of those truths.” (insert from included booklet)

If this statement touches your heart, please read on.

We are the Monument of the Americas, a 501(c)(3) nonprofit organization devoted to the creative conception, practical execution, and maintenance of an inspired, unprecedented sculpture and garden park dedicated to celebrating the Book of Mormon, Jesus Christ and his teachings, and the destiny and legacy of America as the Promised Land. When completed, the park will feature over 50 world-class, fine art bronze statues and sculptures (some over 18 feet tall), majestic water features including a waterfall and 40-foot, three-tier fountain, and a classically-inspired visitors and events center, all to be set amid a beautifully manicured landscape on a stunning six-acre site in blossoming Heber Valley, Utah. The park will be a quiet place of introspection and inspiration. It will also be a place for community to gather, with an outdoor amphitheater for concerts, plays, and devotionals, and a visitors and events center equipped to host community and private events, art education, and conferences.

With over 25 years invested in the conceptual and planning process, we have made amazing progress and are now ready to embark on making this vision a reality: the site has been acquired and Heber City is thrilled to have the park be part of their community as a cultural center and tourist attraction; the garden plan has been drafted; all the 50+ statues have been created in their preliminary size and some already enlarged

to their final monument size (most to be life size or greater); and our list of sponsors and partners is growing exponentially. We are pleased to announce a significant financial gift from Senator Gordon H. Smith, which will be used to enlarge one of the central statues, “The Title of Liberty,” of which we will be specifically highlighting in this package.

During this exciting time as we transition from conceptual design to construction of the park’s various components, we are looking for committed financial partners to bring the remaining components of the master plan to fruition.

- Partners who believe in the destiny of the promised land, America, and seek her unity and continued liberty.
- Partners who wish to declare the story and celebrate the message of the Book of Mormon in an unparalleled way.
- Partners who want to pay tribute to our forebearers and all they painstakingly built for us.
- Partners who love our Savior, Jesus Christ.
- Partners who wish to leave behind a tangible expression of their faith and testimony for future generations.

If any of these core values align with yours, we humbly ask you to consider becoming a partner with us in building this world-class, historical monument park.

We invite you to read the included booklet which showcases the before mentioned bronze statue, “The Title of Liberty,” as well as further introduces our legacy garden park. This unforgettable piece is slated to be a focal point of the park, which, when completed will rise to a height of nearly 25 feet. **We are very happy to be gifting one of these inspiring bronze statues in it’s tabletop size (40 inches tall by 36 inches wide), as a token of our valued partnership, to each of our Regency Level Patrons who donate \$50,000 or more.** We can also offer special opportunities to our most generous partners of having the faces of selected statues be given the likeness of yourself or a loved one as a visual testimony and legacy.

We understand that this kind of partnership entails a personal relationship, and that trust and time are needed. We would like to begin building that relationship and trust with you to explore what level of participation might interest you. In addition to hosting more in depth small-group information sessions in your area, we would be happy to arrange personal, one on one meetings. Whatever information you might need from us to better understand this important project or the team of individuals behind it, please contact us so that we can begin this process.

We hope you will feel inspired to join with us in this historic legacy project, and we thank you in advance for your consideration.

Sincerely,

Monument of the Americas Team
